# Standard Accessories

Below are projects where we have used a combination of **standard accessories**.

## WORKSHOP EXTRA DOORS

Used 20' standard container. Repainted and fitted with a set of container doors to the sidewall. Shelving, work bench and whirly bird fitted.

## WORKSHOP DOUBLE DOORS

New 40' high cube double door with lighting, power, shelving and steel working benches. 2 x whirly birds.

### STORAGE CONTAINER ROLLER DOOR

New 20' standard container fitted with a roller door in the side wall.

### STORAGE CONTAINER SIDE DOORS

Used 40' standard container fitted with a set of container doors in one side, repainted.

## Complex Modification Projects

In addition to these projects using the standard accessories, we can also carry out more **complex modification projects**. We have listed below different examples to give you a better understanding of our capabilities.

### LIBRARY/READING ROOM

New single use 20' standard container. Lined and insulated, power points, lights and a box AC fitted. Two glass sliding doors fitted to one side wall, with an exterior light. Vinyl flooring fitted.

ESTIMATED  
PROJECT COST  
**\$12,000**

### OFFICE/WORKSHOP

New single use 40' high cube container. One half has been lined and insulated, fitted with a personal access door and window. Lights, power points and a box AC unit, to be used as an office. The other half has been fitted with power points and lights, to be used as a workshop.

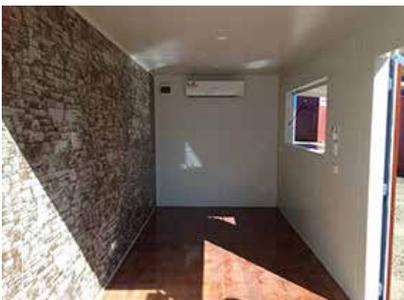

ESTIMATED PROJECT COST  
**\$20,000**

### CONTAINER CAFE

New 20' high cube container. Lined and insulated with special order stone affect panels. Set of custom made double doors fitted to the side wall and an awning with servery. Lighting, power points and a split system AC. Work bench and preparation areas.

ESTIMATED PROJECT COST  
**\$23,000**

### INSULATED ACCOMMODATION UNIT

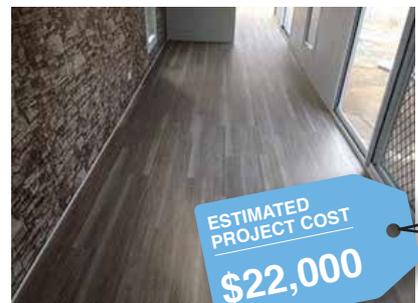

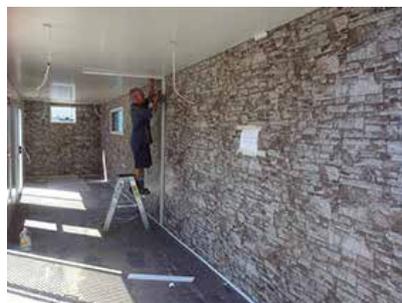

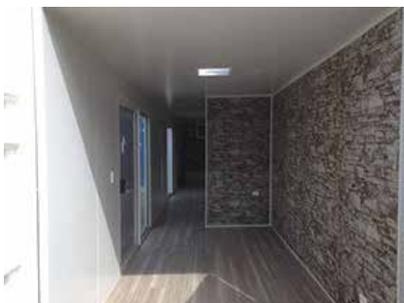

Used 20' refrigerated container. Remove refrigeration machinery and replace with glass sliding door. Supply and fit a window with exterior security cover, over lay flooring with plywood.

ESTIMATED  
PROJECT COST
